Bloging

Listening To Music

Collaborating On Open Source Project

For coders who work in an office all day. Blogging can be a great way to meet new people outside of work with similar interests. Collaborating on open source projects is a popular programming activity that provides many benefits to others. Web browsers, programming languages, games, content management systems and others may use open source technology. listening to music is a hobby that can be a great mood enhancer. Create a stimulating playlist for work and another one with soothing music for relaxing. Creating an invigorating work playlist can help your mind focus when working on complex tasks**.**
